MS Final Thesis Defense Results

Please summarize the Committee's reasoning in support of SATISFACTORY or UNSATISFACTORY defense outcome. Attach additional page(s) if needed.

The committee requested the following changes were requested to the thesis. The changes were ssatisfactorily completed.

Follow TAD template.

Follow NIH guidelines for a specific aims page.

Improve literature review / related work. A reader should understand your position in the landscape of your research.

Lay introduction to help CS people understand the context

Move new figures presented in thesis defense to document.

Elaborated on the methods used to build the classification models

Your references should refer back to original works, not the most recent work (that can go elsewhere in the related work).

Motivate choices for mutation selectors, etc.

More thorough Association Rule mining discussion needs to be provided.

Chapter 5 added to show aim 3

Similarly, at the end, in the conclusion, reiterate your distinct contributions to the field.

Moved discussion sections adjusted and moved to end discussion and next steps

Add a "future work" / "next steps" section. For ideas of where things should go next (or things you ran out of time to do).

List of publications resulting from the MS Thesis

Attach additional page(s) if needed.
